Librarian of Congress at Washington.

PREFACE.

For several years past I have discarded the self-laudatory practice of inserting Prefaces, and I would not intrude this year but to introduce to my Patrons (on next page) the census of Norfolk as recently taken by the city authorities. The following table, giving the number of names under each letter, will also be found to be interesting, and afford some idea of the population of Norfolk and suburbs from a Directory standpoint:

A	237	J	432	S	849
B	1099	K	183	T	401
C	655	L	372	U	16
D	461	M	760	V	52
E	184	N	136	W	1095
F	344	O	107	Y	28
G	489	P	411	Z	4
H	787	Q	14		
I	22	R	461		
					9,603

This total, 9,063, multiplied by $3\frac{1}{2}$ (the smallest multiplier used in other cities), gives Norfolk and its immediate surroundings, exclusive of Portsmouth, a population of 33,610, all of which Norfolk has.

To be brief and conclude, I thank all who have aided and encouraged me by their kind words, or in more substantial manner, by their patronage.

Respectfully,

J. H. CHATAIGNE.
